Severe Weather Outlook Saturday, April 06, 2019

National Weather Service
Storm Prediction Center

<http://www.spc.noaa.gov>

Hazardous Weather

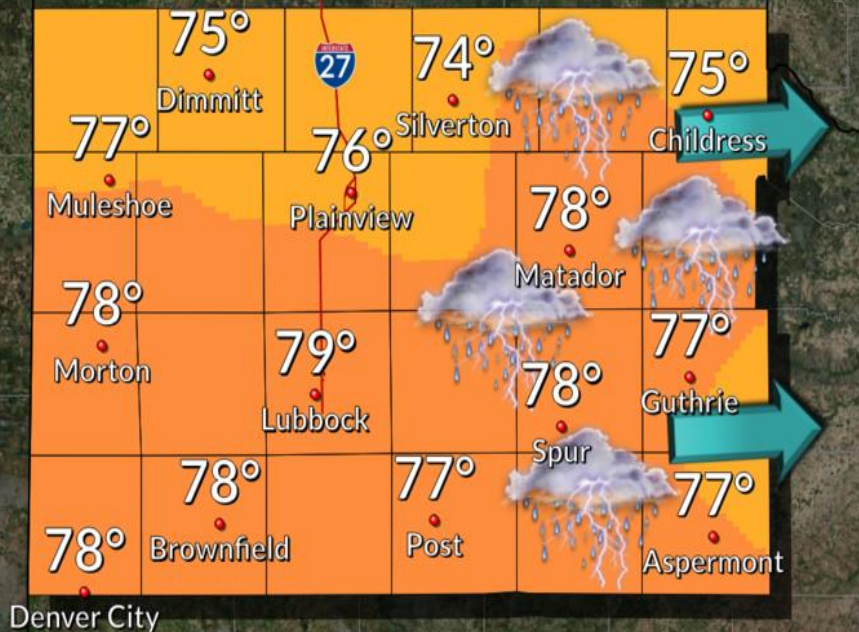

Today

Thunderstorms moving to the east by the afternoon.

Weather Forecast Office

Lubbock, TX

Issued Apr 06, 2019 4:14 AM CDT

f t NWSLubbock

weather.gov/lub

Overnight storms are expected to still be rumbling across portions of the Rolling Plains and southeastern TX Panhandle, moving out by mid to late morning. The rest of the day will give up clearing skies with highs in the mid/upper 70s.

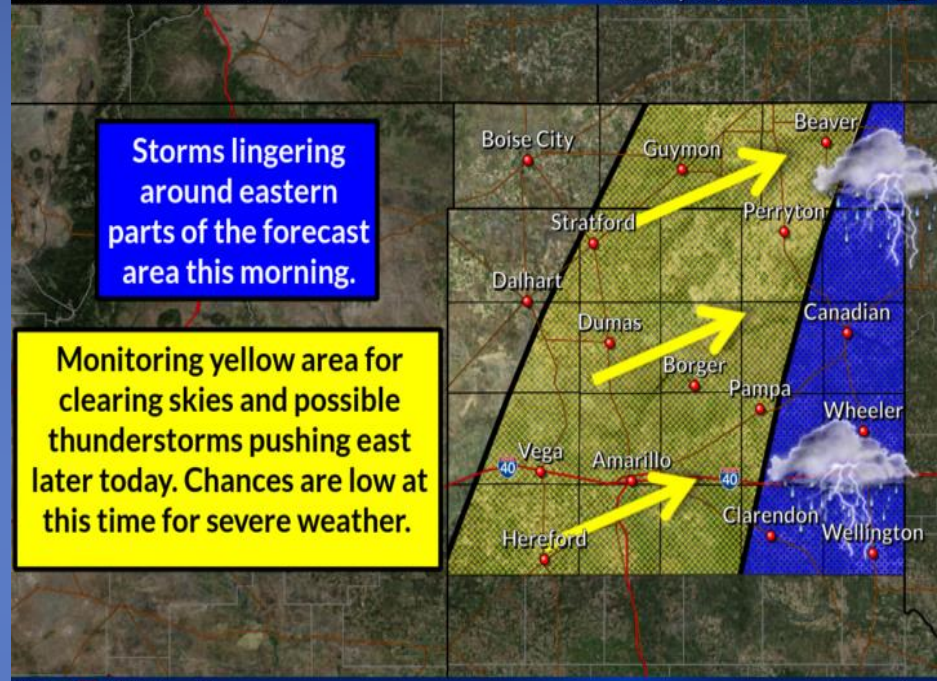

Lingering Storms Possible Today

Need to watch if skies clear out

Weather Forecast Office

Amarillo, TX

Issued Apr 06, 2019 5:23 AM CDT

f t NWSAmarillo

weather.gov/ama

Storms will continue to exit the region this morning. Panhandles may see some lingering storms in eastern parts of the forecast area. Will need to watch for clearing skies and redevelopment this afternoon. Severe weather threat is currently low today.

Hazardous Weather

Today's Rain Chances & High Temperatures

Weather Forecast Office
Lake Charles, LA

Issued Apr 06, 2019 6:51 AM CDT

Morning showers give way to afternoon t-storms

f t y NWSLakeCharles

weather.gov/lch

Morning showers will lift northward and give way to a few scattered afternoon thunderstorms. The greatest chance for thunderstorms across the northern part of the forecast area. Winds will become southerly and increase through the day allowing for temperatures to climb into the upper 70s to low 80s.

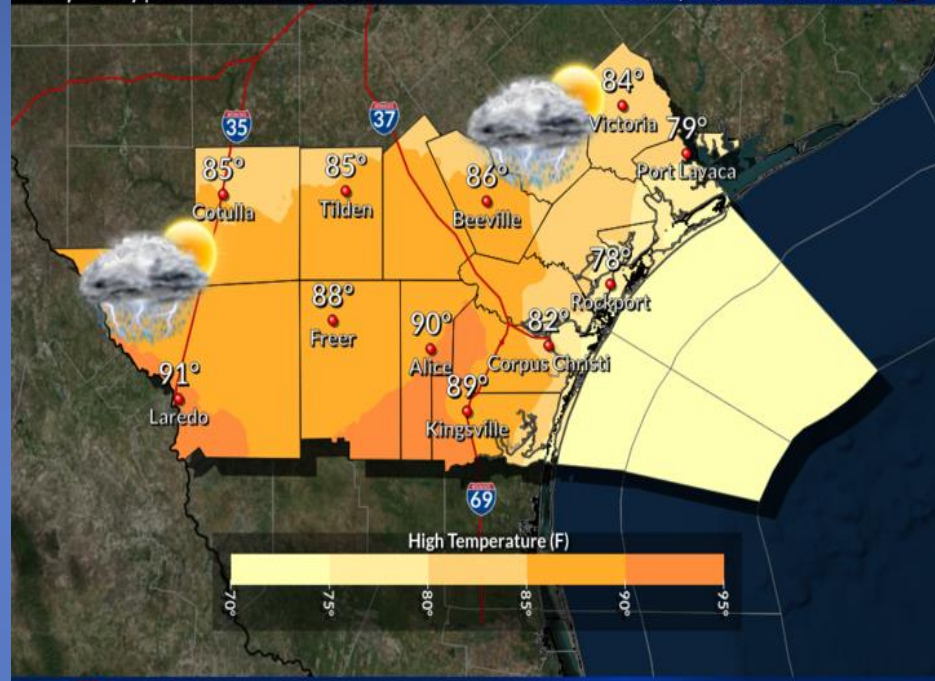

Warm and Breezy Today

Weather Forecast Office
Corpus Christi, TX

Issued Apr 06, 2019 4:15 AM CDT

Mostly Cloudy | Showers & Storms Possible

f t y NWSCorpus

weather.gov/crp

Morning fog will clear out as onshore flow strengthens this morning. Isolated to scattered showers and storms will be possible today with the greatest chances across the Northwest Brush Country to the Victoria Crossroads. Highs today will warm up into the low 80s to low 90s.

Hazardous Weather

Today | Breezy & Very Warm

Weather Forecast Office
Brownsville/RGV, TX
Issued Apr 06, 2019 5:02 AM CDT

Isolated T-Storms Possible | Highs in the Upper 80s/Lower 90s

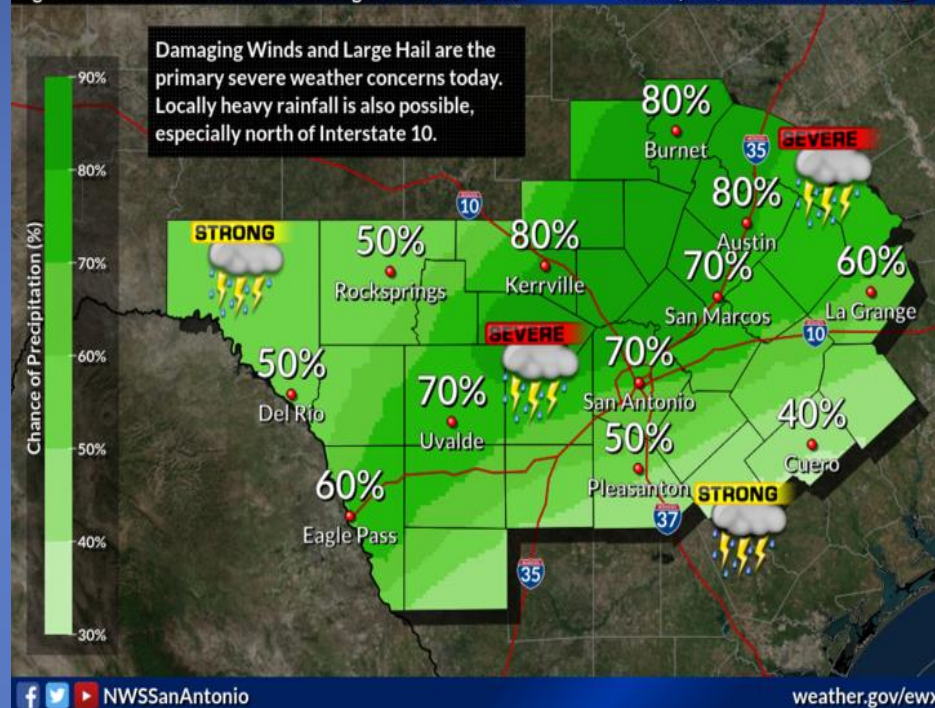

Temperatures are expected to be slightly warmer today across Deep South Texas, with highs in the upper 80s to lower 90s in most spots (mid-upper 70s along the coast). A mostly cloudy start to the day should clear up to partly cloudy conditions by late morning. A slight chance of rain and isolated thunderstorms are possible by this afternoon for the entire region, with chances increasing this evening and overnight. Winds will be breezy out of the southeast, 10 to 20 mph. Winds will especially be felt along and east of HWY 77/I-69E. Mariners can expect a breezy southeast winds, with moderate chop on the bay, and Gulf seas around 2-5 feet. Small craft should exercise caution on the bay and Gulf waters.

Strong to Severe Storms Possible

Weather Forecast Office
Austin/San Antonio, TX
Issued Apr 06, 2019 3:52 AM CDT

A good chance of rain for most areas. Highs in the 70s & 80s.

There is a slight risk for severe thunderstorms across south central Texas today. The primary severe weather concerns today will be damaging winds and large hail. Some locally heavy rainfall is also possible, especially north of Interstate 10.

Hazardous Weather

Saturday's Storm and Severe Weather Threat

Weather Forecast Office

Fort Worth, TX

Issued April 6, 2019 6:16 AM CT

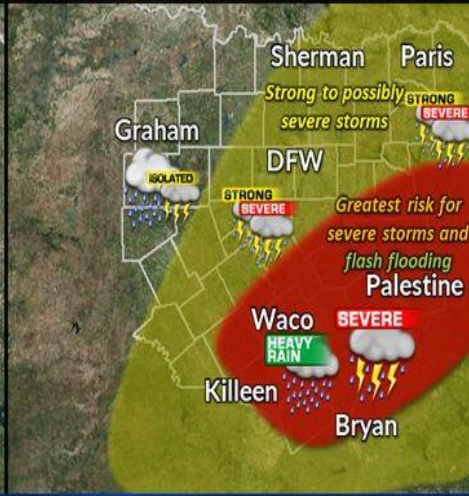

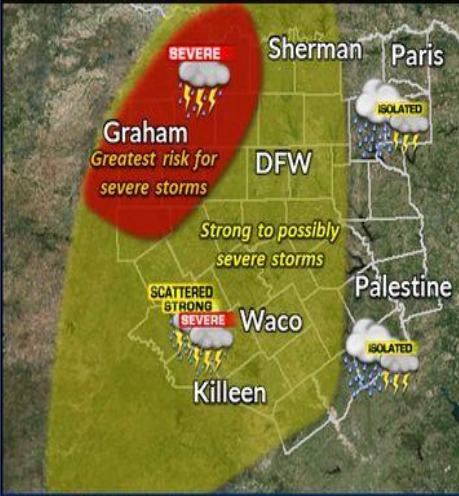

This morning

- Line of storms impacts red shaded area, but other scattered storms develop across the region from west to east.
- The main threat is hail (quarter to ping-pong ball size) and strong winds.

Afternoon to Early Evening

- Severe storm and heavy rainfall threat likely shifting southeast and becoming focused in the red shaded area.
- Main hazards with storms will be large hail and damaging winds. Isolated tornadoes possible.

f t NWSFortWorth

weather.gov/fortworth

This Afternoon: Clearing Skies

Weather Forecast Office

San Angelo, TX

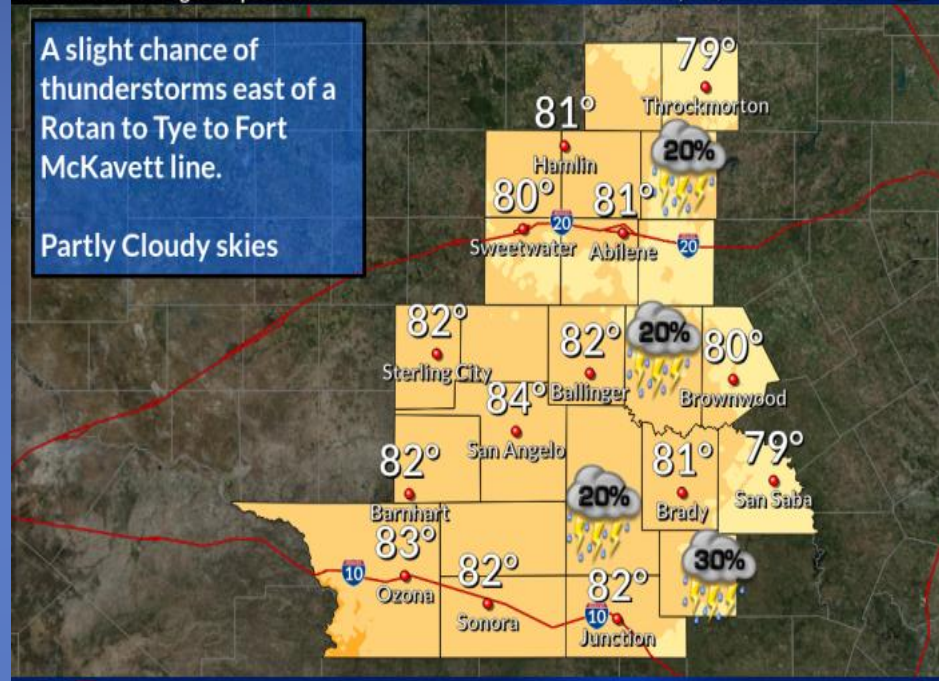

Issued Apr 06, 2019 5:10 AM CDT

This Afternoon's High Temperatures

A slight chance of thunderstorms east of a Rotan to Tye to Fort McKavett line.

Partly Cloudy skies

f t NWSSanAngelo

weather.gov/sjt

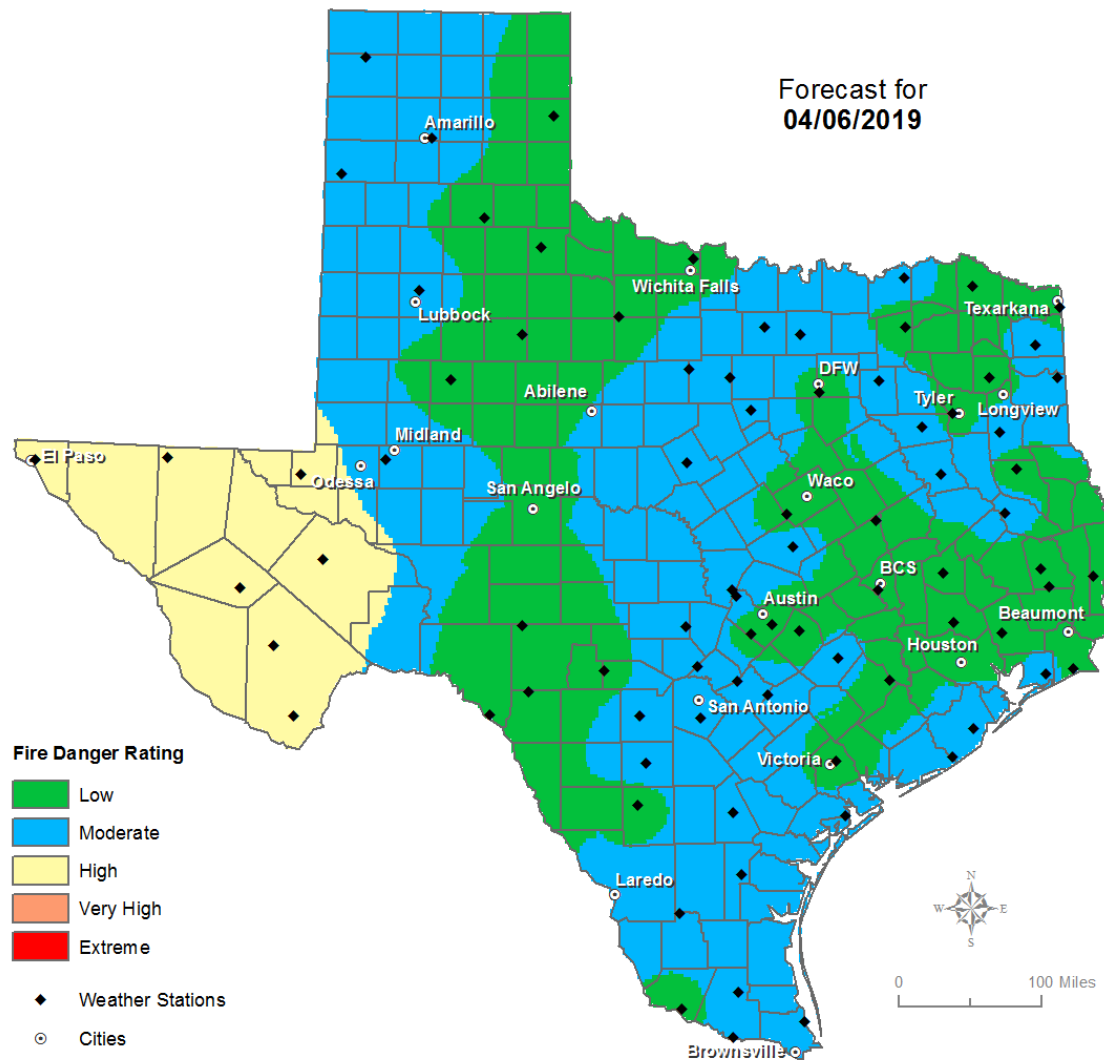

The risk for severe thunderstorms will continue through the day today. This mornings severe weather threat will generally be north of I-20 and west of I-35. That threat will shift to the southeast in the afternoon into portions of Central and East Texas. The threats will be large hail, damaging winds and isolated tornadoes.
